Subject: **REASONABLE CONSUMER PRICES OF LPG FOR DECEMBER 2012**

Dear Sir,

In exercise of the powers conferred under Section 6(2)(q) of the OGRA Ordinance, Rule 18(2) of the LPG (Production & Distribution) Rules, 2001 and in pursuance of Para 3.4.2 of LPG Policy 2006, the Oil and Gas Regulatory Authority has determined the following reasonable maximum consumer prices of 11.8 kg cylinder including distributor margin of Rs. 70/11.8 kg cylinder for all the urban and rural areas of the country. Due to higher transportation cost in AJK, FATA and Northern Areas, Rs. 30/11.8 kg cylinder will be admissible to these mentioned maximum LPG consumer prices:

- (a) Reasonable maximum consumer price for 100% locally produced LPG is Rs.1,477 / 11.8 kg cylinder i.e. Rs. 125.16/kg.
- (b) Reasonable maximum consumer price for 100% imported LPG is Rs. 1,644/11.8 kg cylinder i.e. Rs. 139.32/kg.
- (c) Reasonable maximum consumer price for local & imported mix LPG is Rs. 1,479 /11.8 kg cylinder i.e. Rs. 125.33/kg.

2. You are, hereby, directed to ensure that the LPG consumer prices of your company do not exceed the above mentioned consumer price(s).

3. All LPG Marketing companies are therefore hereby directed to make available/issue the sales invoice / gate pass on the company printed format clearly mentioning whether the consignment is imported one or local before dispatching the truck from storage and filling plants.

(Javed Nazir)  
Sr.Executive Director (Operations),
