

**REQUIREMENTS FOR REGISTRATION WITH OGRA AS AUTHORIZED FOREIGN
MANUFACTURER OF LPG EQUIPMENTS**

Any foreign LPG equipment manufacturer, who wants to pre-qualify/register with OGRA, may submit the application alongwith supporting documents to substantiate the following requirements/criteria:-

- a) Should possess the required manufacturing and testing facilities.
- b) Should possess adequate and qualified manpower, well conversant with NFPA-58 Standard and other international Standards.
- c) Accreditation/Certification for manufacturing LPG equipment.
- d) Should not have been black listed in Pakistan (A certificate/affidavit to be provided).
- e) Verification whether the manufacturer is genuine or not would be carried out through concerned embassy.
- f) For sake of compliance to a qualifying standard if further assessment is required, shall be conducted from a reputed Lab/Institution at the expense of applicant/manufacturer of that specific LPG equipment or a portion thereof.
- g) Manufacturers of LPG Storage tanks/ LPG bowzers, LPG cylinders, LPG dispensers, LPG conversion Kits/ LPG vehicular cylinders (alongwith complete accessories/fittings) and LPG Cylinder valves would deposit one time initial processing charges and annual renewal fee to OGRA, as prescribed.
- h) More than two models at a time and additional model of the same manufacturer shall be charged initial processing fee. However, annual renewal fee shall be based on type of LPG equipment.
- i) The Technical Evaluation Committee which also comprise designated OGRA's 3rd party inspectors, constituted for the purpose, shall submit its findings/ recommendations to the approving Authority for enlistment or otherwise.

In addition, OGRA may require further information/document(s) and/or to conduct further tests/confirmation which shall also form basis for such evaluation.
