### **Petrol pricing: It's 2021, get it right**

For the umpteenth time, the petrol price revision led to quite a storm. Apart from the usual banter on the "all-time high" there was an added flavor of how the consumers were robbed by the government, acting against the regulator's summary

### **Electricity-gas pricing trade-off**

With a gas price hike of 7-14 per cent due in the first week of next month as required under a determination of the Oil & Gas Regulatory Authority (Ogra), the government has started thinking a little differently. Finally, it has decided to start giving price signals to consumers based on energy availability and its cost of supply.
