SAFE TRANSPORTATION

Training for drivers of LPG bowzers

ISLAMABAD. The Oil and Gas Regulatory Authority (OGRA) has arranged a certification course called "Heavy vehicle preventive driving course" for drivers of LPG bowzers for the safe transportation of highly inflammable LPG. The course is in collaboration with the National Logistic Cell (NLC) at the Applied Technologies Institute, NLC Headquarter Corporate Office in Rawalpindi. It consists of 1-2 weeks of training, focusing on pressurised gases/dangerous petroleum products. OGRA has recently issued licenses allowing the transportation of LPG via road bowzers and directed all the LPG producers/Terminal Operators/marketing companies to ensure that the bowzers/containers hired/owned for transportation of LPG are in compliance with the standards, specifications, safety codes (ASME Code, Section VIII (Div-I) of LPG Rules, 2001/NFPA-58 for safe handling. "To avoid accidents, all the LPG bowser drivers should undergo the 'Heavy vehicle defensive/preventive training course' within six months." OUR

OGRA arranges certification of drivers

ISLAMABAD: OGRA arranges certification of drivers of LPG Bowzers in collaboration with National Logistic Cell (NLC) for safe transportation of LPG. Islamabad. Oil and Gas Regulatory Authority (OGRA) has arranged certification course "Heavy vehicle preventive driving course" for drivers of LPG Bowzers for safe transportation of LPG being highly inflammable which can cause ignition and fatal accidents. The training has been arranged in collaboration with National Logistic Cell (NLC) at Applied Technologies Institute, NLC Headquarter Corporate Office, Rawalpindi consisting 1-2 weeks training focusing on pressurized gases/dangerous

petroleum products. OGRA has recently issued licenses allowing transportation of LPG through road bowzers and advised all the LPG producers/Terminal Operators/LPG marketing companies to ensure that the bowzers/containers hired/owned for transportation of LPG are in compliance with the standards, specifications, safety codes (ASME Code, Section VIII(Div-I) of LPG Rules, 2001/NFPA-58 for safe handling. In order to avoid accidents, all the LPG bowser drivers should undergo "Heavy vehicle defensive/preventive training course" within 6 months. All the nominal expenses of training course shall be negotiated by the company.— DNA
