### **Energy sector reforms — I**

My previous op-ed, summed up Pakistan's gas supply position vis-à-vis the current demand, prevailing geo-political context, international spot-market under which Pakistan functioned over the last 4 years and the much criticized "Qatar LNG gas deal" which if not signed, the economy today would have potentially grind to a halt due to severe gas shortage, extensive rolling blackouts, contraction and shutdown of industry to make up the 600 mmscfd contracted in 2016/17.

### **Regulatory regime and public trust in Pakistan**

We have painfully witnessed an erosion of public trust in different state institutions either due to the collusion of various stakeholders or the lack of capacity of our institutions to deliver the services effectively and efficiently.
