SUBJECT: IMPLEMENTATION PLAN FOR THE PROPOSED ENERGY CONSERVATION MEASURES

AMENDMENT IN THE CONTRACTS FOR SUPPLY OF GAS FOR DOMESTIC & COMMERCIAL (INDIGENOUS GAS & RLNG) USE.

REF: NG(II)-15(27)/22-EA-pt dated 05 December 2022

(Important)
AED (Fakhim)
27/12/22

Dear Sir,

This refers to MoE above referred letter informing SSGC that in pursuance of Federal Cabinet's decision dated 11-10-2022 an inter-ministerial committee has been constituted to recommend short, medium and long term implementation plan for the energy conservation measures. The meeting of said committee were held in Power Division on 16-11-2022 and 30-11-2022.

During the said meetings, the committee recommended that in order to save gas, conical baffles shall be added to geysers and the new geysers to be produced shall have the conical baffles already placed in it. The target to replace the existing geysers with the new technology would be 2023. The committee also instructed that the task related to amendment in existing gas supply contracts of consumers for mandatory installation of said equipment in the geysers should be started and achieved as early as possible. Sui companies are advised to file the request to OGRA for amendment in the consumer's gas supply contracts in order to proceed further in the matter.

Since 2019, SSGC has already incorporated the element of conical baffle in gas fired geysers for making a positive impact on one's gas bill through Company's gas conservation campaign. Company has also run campaigns on social and print media through posts and standard sized ads in social and print media.

In compliance with Ministry Directives, following new sub-clause is required to be added for mandatory installation of Conical Baffle Equipment in geysers, in the gas supply contracts of Domestic (indigenous gas), Domestic RLNG, Commercial (indigenous gas) and Commercial RLNG.

01-09-12-2022 Time: 3:19 PM

• **TITLE OF SUB-CLAUSE:**

- **Installation of Conical Baffle Equipment in geyser(s).**

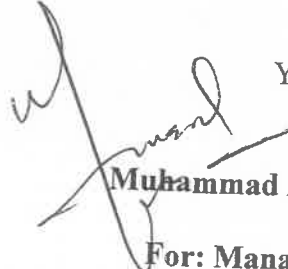

*It shall be the responsibility of consumer to install **Conical Baffle Equipment** in all existing and newly installed geysers for energy conservation. The Company has the right to inspect the premises of the consumer to ensure that all the installed geysers are duly equipped with **Conical Baffle**. In case of Conical Baffle is not installed in the geyser(s), the Company will install the Conical Baffle and will charge the cost in the gas bill.*

Above amendment is required in the existing Gas Sales Contracts in clauses mentioned below.

Existing Clause Title: Houseline installation, Modification and alteration.			
S#	Contract	Clause/Point no.	Amendment
1	Domestic (indigenous gas)	Clause No. 6 (This clause has total three [iii] sub-clauses/points)	Sub-clause/point no. iv may be added in this clause.
2	Domestic (RLNG)	Clause No. 6 (This clause has total three [iii] sub-clauses/points)	Sub-clause/point no. iv may be added in this clause.
3	Commercial (indigenous gas)	Clause No. 6 (This clause has total two [ii] sub-clauses/points)	Sub-clause/point no. iii may be added in this clause.
4	Commercial (RLNG)	Clause No. 7 (This clause has total three [iii] sub-clauses/points)	Sub-clause/point no. iv may be added in this clause.

Submitted for the perusal and approval of the Authority, please.

Yours sincerely,

Muhammad Asad Mustafa
